

# How to make a Wiggly Woo Sock Puppet

**You will need:**

- Small clean sock
- Buttons x 2
- Needle and thread

**How to make:**

- Turn your sock so that it's flat on the floor with the heel underneath
- Sew two buttons onto the point of the sock on the front
- Make sure they are sewn on well - you don't want them to come off and get swallowed!
- Check your buttons regularly!
