

JUNGLE ADVENTURE

Snap, Roar Hiss by Piccollo Music

Props: parachute with tassels

Learning Outcomes

- Visual stimulation as babies watch parachute going up and down and brightly coloured tassels moving around
- Babies able to crawl underneath and grab tassels if able to do so
- Sensory stimulation as babies are tickled by the tassels if crawling underneath
- As parachute moves in time to the music, baby will see the movement matching the rhythm of the song – recognition and reinforcement of rhythms helps to develop speech and language

Activity:

- Baby sitting on your knee where they can see the tassels moving, or lying on the floor watching
- Babies welcome to crawl about underneath and grab the tassels if they wish to
- Move parachute up and down and side to side to make tassels move
